ISAAC M. KEELER, EDITOR AND PROPRIETOR

Presonal.—Jony F. Caples, esq., who has for several years successfully practiced law in this city has removed to Fremont. Ohio, and formed a co-partnership with Chester Edgerton, esq., a pepular and influential attorney of that town.—We recommend Mr. Caples to the citizens of Fremont and Sandusky county, as a man of fine legel talent and an experienced pleader at the bar. We wish him every success in his new home.

That fact shows what stubborness and courage they cynned on that bloody day.

Let no man in Sandusky county flatter himself that because the draft in Ohio has once been postponed, that it will be delayed after the first day of October, next. We consider it certain.—

Many people in the county, and some in the townships on which the draft falls heaviest, have told us they did not believe a draft would ever occur, and to this belief, we think is the reason that so few have enlisted since the 15th instant. Dr. Rawson, the Commissioner of the county is making preparations to commence drafting on Wednesday morning, of next week. There will be not less than 200, perhaps more, that must be colors at the colors at the conemy and defy them to guage some weeks since, used to boast that be was present at the mob in that city, in 1835, and fired the shot that killed Rev. The men had not heard the news, as Kirby suppressed a bundle of Louisville Journals which came to hand, on the ground that they told lies about affairs in fors to Mr. Waite, the nominee for Congress Maryland and elsewhere.

The feeling with regard to the late engageare disproportionalely small, compared with the er things being equal—we anticipate no cost at which they have been purchased.

The attention of those who have already com-menced demanding a premium on the new post-age stamp currency, is directed to section 193 of the act of Congress, passed March 3, 1855, which reads as follows:

An important orcheological discovery has just een made at the city of Pompeii, of a mill with a rest quantity of corn in excellent preservation, and an over with S1 loaves, arranged in rows, and but slightly affected with the heat of the lava having been praceted with a quantity of scheet which had covered the iron door that fitted to the mouth of the oven. It is whispered—says a Ship Island correspondent of the Philadelphia Press—that 2,000 troops, under Brigadier General Aroold, will attack Mobile before many days has elapsed—Doubtless the marines with Admiral Farragut's squadron will have an opportunity to participate in the exhilerating sport. It would only be an act of charity to the paor fellows who have been cooped up on shipboard so many months. As to whether the attack will prove successful I cannot say, but rightly managed, I firmly believe it will, and my belief is shared by my comrades.

From the Hon. Mr. Grittan.
Oxonaga, N. T., June 21, 1862.
Dear Sir:—Some time in April I bought a roll of your
Medicated Vapor, or Excelsion Chewing Guns, of a turveling Agent. At the time I regarded it as an experiment
for a throat difficulty. A long standing disease, and I take
this opportunity to acknowledge its bealing analities
which have been manifest in my case, as the wooder of all
who know the affile toos under which I laboued for a leng
time—its effects have called forth much inquiry as to
where it could be obtained, as many are anxious to get
some for like complaints. Please forward south.
Yours, &c.,

BRITTAN.

We publish it another column, an article from the Cincinnati Times, descriptive of Dr. Roback's extensive medical establishment in that city. By the way, Dr. Roback's extensive medical establishment in that city. By the way, Dr. Roback's Romedies have obtained a great and descreed popularity with all classes. It has been but a short time since thes Remedies were introduced into our section of country yet Dr. Bremnan, Dr. Roback's Agent in this place, in forms us that his sales of the Blood Pills and Blood Parifer now far exceed these alali other medicines for which he is agent, combined. The reason for this, is, that the have stood the test of practical experience. We know this not only from the mouths of others, but we have sued them in now own family with the very best results. For all diseases of the blood, general debility, whether proceeding from natural weakness, indigestion, and a sindred aliments, we recommend the Scandinavian Rom edies as the very best medicines extant. They are destined to achieve mit an ephemeral success, but a permanet and descreed reputation, which will render them necessity in every family.—Napoleon Northmeet.
